

The Gilbert Chamber of Commerce is invested in identifying those candidates who will best represent the interests of the business community while serving in office. As such, we invited all candidates to respond to both written and video-response questionnaires which address a variety of issues impacting our businesses. These responses, as well as consideration for each candidate's demonstrated actions, were scored to issue a letter grade.

We recognize the need for well-rounded, knowledgeable elected leaders. We encourage our membership to reach out to candidates and to access available resources in an effort to cast an informed and confident vote.

Candidates listed in order of final ranking.
